► About Us

Medical Device Digi Expo

Medical Device Digi Expo brings various companies, start-ups and innovators to showcase their new technologies and innovations. It brings together the Global Healthcare decision makers and authorities to source these technologies, all under one roof. Medical Device Symposium a high-level conference alongside offers an opportunity for networking and knowledge sharing. The Medical Device Digi Expo thus facilitated its modest contribution to the healthcare sector.

- + Knowledge Sharing
- + Technology Tie-Ups
- + Business Expansion
- + Innovation
- + Cutting Edge Technology
- + Global Platform

► Vision Of

Medical Device Digi Expo

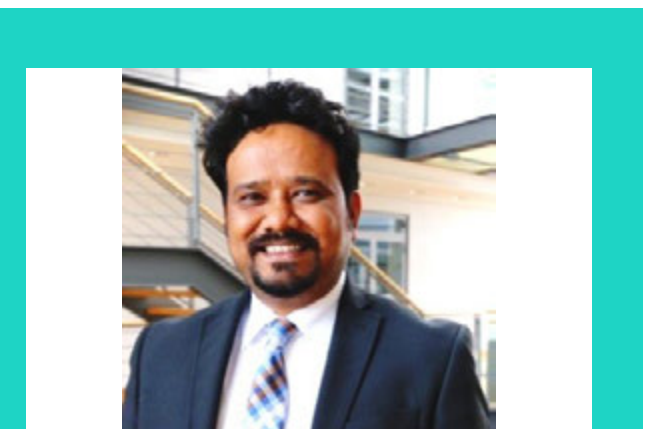

Our objective in organizing the Medical Device Digi Expo is to bring global companies, authorities, and regulatory bodies from the healthcare sector on a common platform which will help them in embracing new technologies faster and bring new innovations at the fore-front. This will support improved growth for the companies and improving overall healthcare management at large.

With 20 conference sessions, 31 speakers & 3000+ attendees from 90 countries at the premiere edition of Medical Device Digi Expo 2021 making it huge success and one of the leading platform for medical device sector.

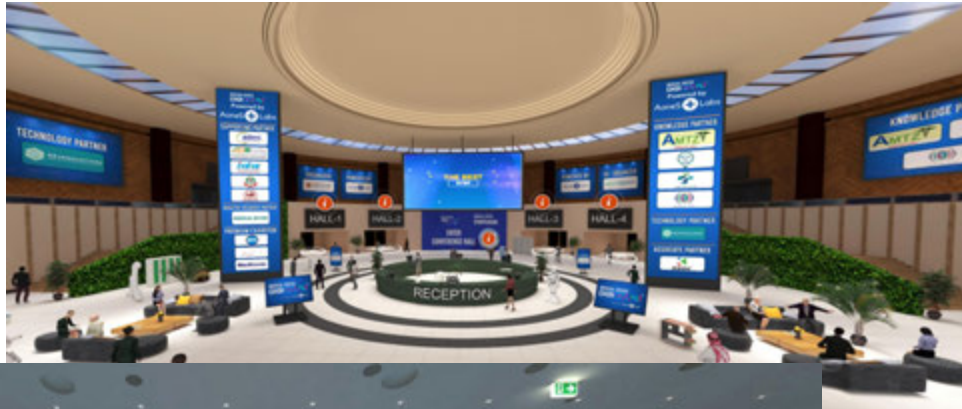

It has been a great pleasure to have all the experts and thought leaders joining us at the Medical Device Symposium and sharing their knowledge.

The event brought together the global medical sector to source these technologies and new products. Thus, making it a truly global platform for the medical sector and true to its core value **'Educate-Explore-Engage'**.
